

## ST PETER & ST PAUL PARISH CHURCH, NUTFIELD EASTER GARDENS 2018

St Peter and St Paul's Church, Nutfield would like to invite children from Nutfield Church (C of E) Primary School to produce Easter Gardens that will be displayed in the church during the Easter period. We would like the Easter gardens to portray the children's interpretation of the Easter story. They can be made from any materials, although it would be good to make use of natural resources available in the school grounds such as soil, stones, moss, leaves, twigs etc. The church is happy to provide trays on which to make the gardens. Please let us know numbers. We also have some large stones that you might like to use.

Please see below some images of Easter gardens that might give you some ideas. We will be able to transport the Easter gardens from school to church once they are made. Thank you and we look forward to seeing your creations.
